Submission: Objection

Comments: I strongly object to this housing development mainly due to my son who has special needs (autism, global development delay, SPD) we live in a small two bedroom house on the main road, this is my sons home, by taking away the small piece of land at the back of our home and adding a road to access the housing development, this will be putting my sons health (both physical and mental) at risk, my son enjoys relaxing in his garden, he enjoys the wildlife we are lucky enough to see ieç deers, owls, many different birds, This is relaxing for my son, By adding another road this will in no doubt put unnecessary stress causing

anxiety to my son, while also taking away the small piece of land for the wildlife to enjoy. With the added road this will also with the amount of cars that will need to run through to access the new housing and extra fumes with these cars in no doubt affect his health, we are already overrun by the amount of cars passing on the main road, this new road will just add to the pressure which already exist.

There is also a primary school facing the access to the new road, which Içm sure will cause more stress adding pressure to the parents and children with there school runs.
