Submission: Objection

Comments: This application must be declined. The infrastructure in Glossop is already at saturation point regarding availability of schools, dentists, healthcare, and transport network. The proposed access to the development is directly across the road from a primary school, which must raise H & S issues at school opening and closing times. The A57 out of Glossop is a log jam already, and an additional 100 vehicles daily at a minimum is unsustainable.

What are the proposals for the new road junction....traffic lights which will add to already heavy congestion at peak times, a roundabout which will require considerable disruption and groundwork next to the school?

What consideration is being given to sewage etc?

All in all, Glossop cannot sustain any more new builds until such time as the public services and infrastructure are brought up to date.
