Submission: Objection

Comments: I am certain that those who are in authority of this have never stepped foot in the town of Glossop. To start with I will mention the most obvious reason for objecting, which is the lack of infrastructure, need I say anymore.

Secondly, schools, doctors and dentists being the most important factors within society have not been taking on new patients for over 4 years. How can it be that, more houses are to be built, with more families, when there is not enough services already? Has this been considered? Have plans been put in place for more schools, doctors and dentists to be built for the people living in Glossop, not to add all the additional people that you have plans for to live in Glossop.

¿Peak times¿ are no longer peak times. At any point in the day you will find yourself in stand still traffic. So far I understand that there is no consideration for those who have to commute out of Glossop for work or leisure. All the objections and frustration may become clearer if the people of Glossop were considered. For 5 days a week, driving to Manchester for 9am and finishing 5pm is no longer an 8 hour shift, but a 12 hour shift. They say, ¿use public transport¿¿ what with the cost at disruptions and strikes? Not considering the idea that when the trains do go ahead, you must push your way to get on!

How is it that those who currently reside in Glossop, are already struggling with these issues which is only ¿scratching the surface¿ in this comment box. But now to add more houses to the most critical part of getting into or out of Glossop. Perfectly reasonable, understandable¿ no, it is inexcusable.
