Submission: Objection

Comments: I oppose the planning application for 100 houses on land off Adderley Place. There is not the infrastructure to support the addition of 100 houses. Average household has 2 cars that's an extra 200 + cars joining the daily grind to get out of Glossop during rush hour. I presume the lack of affordable housing means the developers will be targeting families, schools are already full. I have lived in Simmondley all of my life and remember playing in those fields for the few months the land wasn't total bog over the summer. How will this development impact the water table, environment and wildlife in the area. Developers have been given the green light on so many sites in the local area in recent years with no thought on how these sites affect the town as a whole and how the increased population puts unsustainable pressure on infrastructure.
