Submission: Objection

Comments: I would like to object to the development at Adderley Place for the following reasons:

-The development of 100 dwellings could potentially add at least 200 vehicles to the already serious traffic congestion in Glossop.

-There is already a specific issue with traffic and parking at pick-up and drop-off times at Dinting Primary School, where the traffic from the new development would cause additional congestion and hazards.

-Additional Traffic would also add to issues when events such as weddings, funerals and special services are held at Dinting Church.

The local infrastructure will struggle to support 200 additional families. Local primary and secondary schools may not be able to offer places to children in the new dwellings. Local medical and dental surgeries will also feel the strain of 300-400 additional patients. This additional development will put Glossop residents under yet more pressure, particularly since the long-awaited bypass has still not been built and seems to be eroded at each stage as the cost mounts.
