Submission: Objection

Comments: I am objecting due to the amount of traffic already using dinting vale(A57).

To put a junction opposite a primary school with presumably another set of traffic lights will not only cause more congestion but more pollution as well ,traffic is already at a standstill most hours of the day and moreso at rush hour morning and night.there is no infrastructure for more residents no school places ,no doctors .

Also the proposed buildings are on well known marshland/wetland ,all that water is going to be displaced, where you ask ,all downhill towards the existing houses and land on Dinting Vale itself .

There has been already in last 5 years 6/7 Road traffic accidents where owners vehicles on Dinting Vale have been severely damaged do to the parking situation on Dinting Vale not helped by the school parents and amount of traffic during the day .Its pure luck no one been injured especially schoolchildren
