Comments: The access to this planning application is a concern. Beechview drive has an 'S' shaped rd leading into the rest of the estate. This part of road is already very narrow with poor visibility. Two cars cannot easily pass as it is less than 4.8m. It is on this part of the road that the access road to temple more would need to be. This would, at busy times, make it very difficult to pass for 2 cars. If there was a delivery van it would be impossible without mounting the pavement.

The pavement on the opposite side is very narrow, which makes it difficult for pedestrians to walk along. If you have small children, wheelchairs or pushchairs it's almost impossible.

I am both concerned about how we will access our homes whilst the work is taking place and how safe the road will be once it has been constructed. This is a small, quiet estate full of children who play out and already struggle to walk down their road to school safely.
