Submission: Objection

Comments: I object to this proposed development My reasons are that local public services and schools will struggle to cope with the influx of households from 100 more homes. Also the access roads which struggle to cope with present volume of traffic do not need more cars seizing up the system. I am nervous about potential ratruns through Simmondley when more motorists will seek to avoid the main A57 and consequent danger to local children and vulnerable people trying to cross roads. Where will local green areas be if developments like this are allowed to encroach on these spaces. Are the planners including any improvements to the local infrastructure? - I do not see any evidence of this in the proposals.
