Submission: Neither

Comments: The proposed residential development at Dinting Vale would lie close to an existing and important sustainable transport network, namely the Transpennine Trail and Pennine Bridleway. It would benefit the local cycling and equestrian community if links could be made from the development to the Gamesley Sidings permissive bridleway.

It is requested that the route via the unadopted road to the east of the estate outlined on p19 (5.4) is upgraded to include equestrian and cycling access and that this route is extended to reach the Gamseley Sidings permissive bridleway to the southwest of the proposed development.
