Submission: Objection

Comments: Little consideration, if any, has been given to the fact that this planning proposal will come on the back of the development that is already taking place at Gamesley. There are already serious traffic problems in and out of Glossop, and this will be further affected by a second development.

Traffic trying to get in and out of Glossop often diverts through the surrounding villages, which creates further issues for road systems that are not designed to take such heavy traffic congestion. These routes are also populated with schools, and in the absence of proper traffic management, this creates serious concern for the safety of younger children at our local primary schools.

The infrastructure that currently exists in Glossop is insufficient to support its current population, and when the development at Gamesley is occupied, this will be no doubt stretched to breaking point, so how is it expected to support a further development? The simple answer is that it cannot.
