Dear Planning Team

I am a resident of Simmondley and have just received notification of the planning proposal for housing around Adderley Place.

Are you guys actually for real?!? You clearly don't live in Glossop otherwise you would realise this is a terrible idea.

The roads in and out of Glossop are already chocker, with large queues that regularly block the roundabout at the bottom of Simmondley Lane. The idea of additional housing and traffic here is ludicrous.

Where are all of these kids expected to go to school and how will the already over crowded GP Practice in Simmondley cope?

Is the terrible development that you approved near to Glossop Fire Station not offering enough housing for the local area!? Perhaps when these have been sold there may be further demand, but I can't see that happening - it is almost as though you didn't even spend 5 minutes looking at that area and realising it was a terrible idea to build there.

Who is actually in charge of approvals in and around Glossop? Green spaces are few and far between now, the roads here are worse than Manchester City Centre and local services are struggling.

We do NOT need 94 more houses and 6 cheaply made flats!!

Thanks
