Submission: Objection

Comments: I was extremely upset to hear about this planning application, as a (very) local resident, as a walker, as a lover of wildlife and as somebody who cares about the environment, and preserving green spaces. The field in question, which I have always referred to as "the horse field" due to the three horses which used to reside on there (now two, intermitently) is the most beautiful green space and a tranquil walking route from Dinting to Simmondley and beyond. The surrounding woods are alive with wildlife, I saw my first ever fox run out of those woods, I often see rabbits, and the birdsong is glorious on any given day.

The impact of this development on the environment and wildlife will be horrendous, and I for one am dreading this being passed.

Then there is the traffic issue. The proposed access on to this site is directly opposite Dinting Vale primary school where double parking causes enough problems as it is at school drop off and pick up times. To install a junction on that road, opposite a busy school on a main road is absolutely ludicrous. I walk to work past the propped site day in day out, I see the existing traffic issues, the dread caused by the thought of even more morning chaos is real!

Other concerns to note are any increased flood risk from water running down into Dinting Vale from a housing estate, over stretched local resources as it is, and my cat, Kenneth, he loves those woods!
