Submission: Objection

Comments: This development will put even more traffic onto the already congested a57 from the 100 new houses which sadly will be lived in by people with cars. This will impact local pollution levels, as the traffic congestion grows, which will have a very negative impact on the health of everybody who walks down the main high road in glossop. This is even more so for the young children of dinting school when they play outside. The traffic fumes they have to breathe in are already too much for developing lungs, and undoubtedly causing health issues and storing up issues for the future. To make this any worse with this new development would be criminal.
