Submission: Objection

Comments: The local area already cannot sustain the volume of traffic, which puts a strain on all surrounding areas and impacts the environment through constant and permanent standing traffic as a result of the volume and poor town planning. This absolutely cannot be allowed to go ahead as the plans are simply not viable to support further traffic levels. In addition, the proposed access to the planned housing is directly opposite Dinting primary school, increasing the risk of child safety issues.

There is a fundamental lack of local infrastructure required to support this additional volume in housing, and the location of these plans have been reviewed by experts and confirmed as unviable. This should not be allowed to go ahead.
