Subject: major Simmondley housing development

Categories:

Dear Sir/Madam,

I'd like to add my view opposing this development. I feel it will degrade the area quite markedly. Apart from yet more infrastructure pressures, and the obvious aggravation of the traffic problem in Glossop, this is a plan which blights the whole area. I have seen in other parts of the country the 'filling in' of open land with new development debase the housing environment around it. It has the effect of making the area a functional accommodator of people rather than a place that people enjoy living in. The intervals of open space are a distinct feature of life here.

I hope you refuse this application.

Yours faithfully,

Richard Godfrey (resident of Simmondley)
