Submission: Objection

Comments: I wish to object to this planning application for a number of reasons and ask the committee to consider the following detrimental effects of granting permission.

The increasing no of vehicles this development will create on an already congested A57.

The A57 access point being opposite a popular primary school, with narrow , exposed pavements exposing the children to increasing traffic and the atmospheric pollution along this stretch and

further aggravated by parent parking as children arrive and leave each day.

Along side this is the further confusion the disruption of the of the area with the construction Glossop bypass through Woolley Bridge.
