Submission: Objection

Comments: .I would like to express my concern and objection to the proposed building on land around Adderley Place. The area already has issues with traffic and congestion and this building work would greatly exacerbate this problem.

The areas schools are already full to their capacity and I know of no plans to remedy this. The access road that is planned will cause not just inconvenience but danger to the children at Dinting Primary school with cars parking in precarious positions.

Nhs services are completely overstretched and local GP services will be unable to cope with any more demand .

The whole infrastructure of the area is unable to cope with more housing we are constantly being inconvenienced with water problems as the water network is out of date.

I strongly urge you to reconsider this application.
