Submission: Objection
Comments: I object to this housing development being completed.

The development will result in a huge loss of natural space, an area which is used regularly for dog walking and investigating the natural world. The destruction of this area will be devastating to wildlife within the area which may never recover. The significant loss of trees will have a negative impact on the environment. From my understanding these trees will also not be replaced within the local area/area of the development.

The added pressure of extra traffic will cause major issues in the area, which already has regular issues. I have serious concerns and feel the risks which result from the additional traffic will significantly increase especially due to the road being close to Dinting Primary School. The extra volume traffic will effect air quality which will impact the children within the school also.

The infrastructure in Glossop can not cope with its current residents. How is it supposed to cope with over 200 plus more residents? The infrastructure needs to be invested in and improved before new houses are built.
