Submission: Objection

Comments: I strongly oppose this planning application for the following reasons:

My daughter attends Dinting CofE school which is already on an incredibly busy main road with no off road parking. It can be dangerous enough getting at child in and out of the car at the side of the road with the amount of traffic mixed with pupils of the school being dropped off or picked up without the worry of further traffic being added to this and with an entrance to new housing development virtually opposite the school.

With an added housing development means more traffic, with the average of now 2-3 cars per household that could typically be an additional 300 vehicles for a potential 150 dwelling proposal. With this comes more congestion, more pollution, more noise all of which can affect people's health and well being as well as wildlife health and habitats.

It is also a green belt where the council should be looking to grant permission on only brownfield sites.

With the proposed amount of dwellings to be built the local infrastructure is also insufficient. As residents of Glossop there is already a lack of doctors, primary schools, dentists etc so this would further put our popular town under strain.

There is also issues with antisocial behaviour with a lack of amenities for youths as it is and feel this would be added to with the added development.
