Submission: Objection

Comments: The traffic in this area is already a massive problem. To add any more dwellings will have a detrimental affect on the traffic and the local infrastructure.

That is the last green space we have in Simmondley. The last green space the local wildlife has. As a keen wildlife spotter, I hate that we are taking more and more space from wildlife.

I understand there is a need for more affordable housing, but the prices that these planned houses will be, will still be vastly out of many peoples price bracket. We need to concentrate on getting tgetting housing for the poorer people who are really struggling. Not just make more fancy homes for the purpose of making the rich richer!

I obeect to this proposal and any other propasal in the Glossop, Hadfield, Mottram & Tintwistle areas. Especially whilst we still don't have a bypass yet to tackle the traffic issue.
