Submission: Objection

Comments: The addition of up to 100 new homes will put further pressure on an already struggling infrastructure in/around Glossop -

1. Construction of these homes will put the safety of children attending Dinting school at further risk on what is an already busy road (A57) - whilst construction will cause additional effects on the environment, e.g. fumes, noise, movement of heavy machinery potentially causing even further delays on our roads at peak times.
2. Our schools are full already, a further 100 homes could add 100-200 additional children needing schooling, with no additional schools / teachers to teach them.
3. Additional homes will mean additional people requiring medical / dental care - the existing medical/dental practices are already struggling to meet the requirements of the local community.
4. The roads into and out of Glossop are already full throughout most of the day - a further 100+ vehicles will add to this already long suffering problem to local residents.
5. Services - The energy / water demand is already at peak loading on what is already an old / outdated system, these additional homes will put further pressure on the requirements.
