The plan to develop Adderley Fields with almost 100 new houses would cause enormous congestion on the A57 at DintingVale, exacerbating problems with traffic traveling to and from Glossop.

It raises safety concerns, the road being so close to Dinting School. Also hundreds of school children walk along the A57 to and from Glossopdale School.

Wildlife should be a consideration, deer are known to be around the area.

I think this development would be a grave mistake.
