Submission: Objection

Comments: I am a homeowner in Dinting Vale I stand with a great number of local residents in objecting to the proposed housing scheme HPK/2022/0456.

As a nature corridor, Dinting Vale provides a vital habitat for a wealth of wildlife including deer, birds and many native species. By blocking the natural pathways and disrupting these habitats the wildlife established in this area will be irreparably harmed.

Traffic entering onto the A57 from this development will exacerbate what is already a very congested part of the local road network. The emissions from standing traffic, already at high levels, will further compromise the air quality for residents and school children alike.

The proposed development does not contain explicit detail of how the necessary services and infrastructure will support the increase in population. The profits of any such scheme should be married with responsibilities to current and future residents of the area.
