Submission: Objection

Comments: I object on the negative impact it will have on the existing poor infrastructure in the area.

Public transport - rail and train networks service provision are being cut to the area so if this planning goes ahead there will be a greater impact on the road networks which are already poorly maintained and managed

There are already stretched doctors and dentist provision

The road to access the fields is not a main highway .

Provision for schooling is not in place as these are already over stretched

The wildlife that contributes to the eco climate will be displaced and this include the local deer

Putting any access from the main road will add to the existing daily grid lock

We don't need these houses and they won't bring any benefit to the local
