Submission: Objection

Comments: I object to this proposal in the strongest possible terms. I do not see how this proposal aligns with the council objectives to reduce carbon and promote biodiversity. The introduction of what will likely be 200-250 extra vehicles onto an already congested section of road will create a vast amount of CO2 and other pollutants harming children at the school and residents around Simmondley. The proposal represents a major erosion of dwindling biodiversity around Simmondley and Glossop, and by eliminating the open green space will directly impact the mental health and well-being of residents who use the fields for exercise. This cannot go ahead.
