Submission: Objection

Comments: Thank you for the opportunity to comment upon this proposal. Our concern is for footpaths and access to Rights of Way. The application form claims that no ROW are affected. Yet Glossop FP50 crosses the proposed site in at least two places and is clearly affected by the proposal. This is not recognised by the applicant and until provision is clearly made for this path within the development and it is clear how safe access to it will be maintained throughout the works, we must object to the application.

Given the position on this ROW within the proposed build site, it is essential that a condition is added to any planning permission that may be granted, requiring the path to be safely accessible during and after any build undertaken.
