Submission: Objection

Comments: I am writing to object to this planning application . The proposed Junction and New Road that would be built to come out onto the A57 facing Dinting school is sheer Madness the amount of traffic on that road at rush hour is currently unsustainable.

Building more houses and bringing more traffic and residents into Glossop is just unsustainable the roads are at breaking point, the schools are full, as are the doctors surgery and the dentists.

it would be an absolute abhorrent crime to build houses on the beautiful land at Adderley place there are many animals that live here,a family of Roe deers have been seen in this space and also come up on to our road on Brockholes on Simmondley. People cannot be greedy, they need to think about the residents of Glossop, the animals the environment and the well-being of everybody.

People use this area as a recreational space and by building more houses we are threatening our immedite enviroment, and this will have an impact on the environment and our planet, and the well-being and mental health of the Residents.

I ask you ,please seriously consider this planning application and everybody Who this will affect.

Ourselves our children and our grandchildren the future generations to come ,we need to think about this very seriously, thank you very much, with best wishes Sally Waxman
