Submission: Objection

Comments: There are too many houses being built in Glossop and the infrastructure cannot cope. The roads are constantly gridlocked and the proposed junction for this application is right opposite a school and will cause more chaos. The increase in traffic both during the construction and from the extra cars from the new houses will lead to more pollution near the school. Glossop cannot cope with anymore houses until the roads, schools and NHS services are improved.

The fields on the proposed site are full of wildlife and this will be destroyed by the new builds. We can't continue building on green field sites as there will be no where for the wildlife to go. We have already lost all the green space where the newer parts of Simmondley have been built and we don't need to lose any more.
