Description of Proposed Works

Please describe the proposed works

First Floor Side Extensions with Dormer. Currently there is an existing ground floor flat roofed block and beam extension, on the side of the property which built prior to us purchasing the property. The plan is to put a first floor extension onto this for an additional bedroom with an en-suite and dressing areas, and go into the roof space adding a full length dormer to create an additional bedroom with an en-suite and dressing areas with a Juliet balcony over looking the garden, this would be access by converting the current small box bedroom into a large landing areas to accommodate a staircase to go into the roof extension. On the ground floor we plan to change a set of existing windows into patio doors.
