Submission: Objection

Comments: I would like submit my objection against the plan for 100 new houses on application HPK/2022/0456 on the following points:

- The development will have a major impact to the wildlife and take away an area which is used frequently for walking and families exploring nature.
- The development will see a significant increase in car journeys around the town and exacerbate traffic problems which are already well known throughout the area (and beyond).
- Putting a junction opposite Dinting Primary School seems particularly poorly thought through. The additional traffic and complication of the junction will surely increase risk of injury and impact air quality for the children at the school.
- Infrastructure in Glossop is already under pressure and needs to be invested in and improved.
- The lack of affordable housing seems to be another oversight of the application.

The development doesn't seem to bring a single benefit to our town. No affordable housing for young families, no infrastructure upgrades, no play spaces for the children, and a reduction in accessible green space.

Please rebuff this inappropriate proposal.
