Submission: Objection

Comments: I strongly object to this proposal on the grounds of damage to the environment, poor access, need and location.1.Environment.The land has issues with drainage and provides a soakaway for excessive precipitation.Any development will increase the risk of downstream flooding and water contamination.Historically noise pollution has already occurred.2.Access. Access would be by a narrow privately owned road regularly used by walkers, including children and pets.it is totally unsuitable for extra traffic.3.Need.I fail to see the benefit this scheme will bring to the local community, already served by a number of sites that appear to be under utilised.4.Location.The site is close to the High School and housing, which would be inappropriate.
