Submission: Objection

Comments: Thank you for the opportunity to comment upon this application. Whilst the application form says that no Rights of Way are affected, it would appear that part of FP57 is intended to be the new access road to the development, although a new path seems to be indicated alongside the existing.

We object to the use of FP57 as the access road unless a new path is created to separate traffic from pedestrians and this new path added to the definitive map. If the developer confirms that this is to be the case, then we would remove our objection.

FP62 runs along the boundary of the proposed development.

Given the possible affect on these paths from the development, we would expect to see a condition put on any permission granted that all Rights of Way should be maintained open and safe to use during and after the works.
