Submission: Objection

Comments: This area is not equipped to handle the increases in noise, rubbish and traffic this development will bring, it will de-value the area as well as have untold ecological impacts, further eroding the Green Belt.

The road leading to the proposed site is minor single car road which already has issues with passing traffic, increases in traffic resulting from the development of this site will make this issue far worse. This directly impacts the houses on Beckets wood as they back onto this road.

this area has no need for further camping or glamping sites, there is already one (Chapel Campsite) of the adjacent road (Station Rd) which is never at capacity. This development is clearly a thinly veiled attempt at more property development.

This is without mentioning the site backs directly onto a school, which poses a safety risk.
