Submission: Support

Comments: I support this Application HPK/2022/0443, as it provides jobs in the area for local people. This helps to cut down on car emissions and travel congestion. This building is not obtrusive and the site has been industrial since it was used as a mill. It is being built next to buildings already there. The roof will be painted the same as the other buildings. You can just about see it from the Bypass to Chapel-en-le-Frith if you are looking for it. The good points far out weigh the bad.
