Submission: Objection

Comments: I wish to object to the planning application.

The residential area around the football ground cannot cope with any further expansion to facilities. There are already significant parking, traffic congestion, littering and noise issues which have failed to be addressed.

The application states that numerous groups have been consulted regarding the developments but local residents have not.

The application states that there are 20 parking spaces on site and no further on site parking created - this development will further attract more vehicles and as a resident I already have issues.

The development has now outgrown the area and needs to be moved to the outskirts of the town if a formal parking and congestion policy is not put in place and appropriate road/traffic changes made outside the ground so that on a busy evening residents can freely move between their homes and the town centre without becoming stuck in congestion outside the ground.

The main road past the ground is crumbling down the centre as it cannot cope with the amount of traffic brought to the area as things stand.

significant amounts of litter is blown out of the ground through the gap in the perimeter fence and is never cleaned up. The new gym is going to create more litter in terms of food and drinks bottles but no further waste disposal is going to be provided?

I would be more understanding of the development if the board were willing to listen to the concerns of residents and take some sort of social responsibility themselves. I have seen no evidence of this.

A yellow notice detailing this planning application was not displayed anywhere in the vicinity of the ground.
