Submission: Objection

Comments: I am completely against this proposal. I am not aware that it is necessary. The immediate area is a conservation area, over the years the local authority and local residents have worked hard to respect this historical area and respected planning restrictions. The placement of this mast and associated equipment in this area would be an insult to residents and spoil the look and integrity of the area. Allowing this proposal would put a blight on the area and send a bad message to residents considering improving their homes. There are plenty of other sites where this could be placed which wouldn't impede it's function. I am not even aware that the mast is necessary, i work in telecoms and live close to the proposed site, i know of no poor signal issues and never experienced any issues locally with mobile signals etc on any of the main networks.
