SK131AZ

Submission: Objection

Comments: This is a conservation area so how can this even be considered to erect a 15m phone mast directly in the middle of conservation area. This would be better installed on the waste land at the very end of Paradise Street at least its out if site and at a similar height or is it to much trouble for a company to lay the cables?

If this goes ahead the council must of taken a back hander is 4G not adequate enough rather than destroy the look of the Square this is just greed again you should be considering upgrading the roads instead of this eyesore.

This could also devalue the surrounding properties so are we able to have our properties valued before and after the installation and claim the difference back off the mobile phone company or the council.

Guess not?
