Submission: Objection

Comments: I completely object to this planning application. For the following reasons:

I feel a 5g telecoms mast impacts the basis of the conservation status of the area.

Aesthetically it is not in keeping with the historic facade of the immediate properties/dwellings and will ruin what is regarded as a beauty spot of Hadfield village.

There is no clear evidence of the longer term health effects that this new technology will emit to us and our children.

Old Hall Square holds centuries of historic value and as such the buildings have been kept to a standard to preserve its history, including aged photographic information which was installed in recent years for people enjoying the Heritage Trail. Installing a 15mtr 5g mast directly opposite this information placard completely devalues the spirit in which it was installed in the first place.

I am horrified that the local council is even considering this appalling decision.
