Submission: Objection

Comments: I strongly object to this planning application for these reasons. I moved to this beautiful and historic area of Hadfield because of its conservation status and believed that this would protect me and my neighbours from developments of this nature. A 15m 5G mast will present an eyesore and completely destroy the charm and aesthetic value of the square which is used by many people who take advantage of the benches to rest and contemplate this lovely area. If I understand correctly that sky dishes are not permitted on the front of buildings facing the square, a structure of this kind would make a mockery of previous limitations, already in place, to protect the area, on home owners. It would also make a mockery and be an insult to the time and investment of those who researched and created the Heritage information board situated, ironically, immediately opposite the proposed site of the mast. Since there is no incontrovertible proof that these masts do NOT pose a threat to the health of those living around them, I feel that we could be put at unknown risk by the siting of one in such a heavily populated area. I sincerely hope that big business does not take precedent over the inhabitants who will be directly and negatively affected by a decision to grant permission for this monstrosity to be built.
