Submission: Objection

Comments: I'm objecting to this installation at Old Hall Square. The mast would spoil the aesthetics of the immediate area and if it goes ahead, makes a complete mockery of having a conservation area. To quote High Peak Council (taken from the website) "A conservation area is an area of special architectural or historic interest, the character and appearance of which is desirable to preserve or enhance" "Traditional buildings, their architectural details, materials and appearance contribute towards the special character of each conservation area. Just as important is the way in which buildings and spaces relate to each other, the historic layout of street patterns, views, open spaces, trees and other landscape features."

A 5g mast would stick out like a sore thumb in the proposed location.

I understand that we need to have more connectivity as internet in the area needs upgrading, but the mast would be better placed in a more discrete area, where it blends into its surroundings better.
