Submission: Objection

Comments: I feel that I need to put an objection to this planning application for the following reasons. I have lived opposite the old Hall Square for 10 years and in this time I have enjoyed the the sociability of the square. The local people (dog walkers, friends and local children) use the benches placed either side of the road to meet up and enjoy the beauty and history of the place. The proposed new 15 metre high mast as well as looking unsightly and ruining the aesthetics of the area it is also unclear whether the technology will have any adverse effect on the local people. The conservation of the area is also effected the oldest house in Hadfield is on the Old Hall Square and we even have a information board providing this info to visitors of the area, this house has to stick to strict conservation rules.

This mast would not blend in due to its height and would be very visible from other areas of Hadfield as well as for me as it would be right in front of my garden. As a local walker I know there is areas quite local that already boasts masts at the top of Bankswood.
