Submission: Objection

Comments: I object to the proposed telecommunication tower on old Hall Square for the following reasons we relocated here to Hadfield 10 years ago and love the local area there is such history just outside our front door with the oldest house in Hadfield and others not much younger, the proposed tower will ruin the aesthetics of the area. As we know there is not proof that these towers are harmful to people there have been some studies that suggest that we should have minimal distance away from them.

Old Hall Square is a local meeting place with seating that is used every day of the year I feel that placing this 15 metre high pole will have a detrimental effect on the area, and not only the immediate area it will be able to be seen all over Hadfield because of its height This area is popular to tourism and people following the heritage trail especially walkers who don't come to view towers but the local beauty and conservation history of the place.
