Re. Planning Application D.ET/2022/0021.
To Whom it may concern.

I wish to raise an objection to this proposed application. Old Hall Square is a square enclosed by 17th, 18th & 19th century houses and is a conservation area. A 15 m. mast in the centre of the square is hardly fitting and will detract even further from an already council neglected space.

1. Poor maintenance of footpaths. They are now becoming a dangerous trip hazard.

2. Removal of the light from the top of the old cross. This leaves a dark spot near to where the proposed mast is to be situated.

3. Inadequate Street lighting. The pavements are not well lit particularly in the centre of the square.

I am sure a more suitable (sight less sporting) site could be found perhaps near the railway line or even into Bankswood Park.

Perhaps if the proposal is passed, residents can look forward to a rate reduction as ~~their~~ environment will be totally spoilt.
