Submission: Objection

Comments: The plan to place a 5g mast in the vicinity of the only real conservation area in Hadfield is ridiculous. The height of the mast is well above any surrounding trees and buildings for that matter and will be a blot on the landscape of the historical centre of Hadfield. There isn't even a plan to place the mast in a location where it may be hidden by natural features to mask the monstrosity. Consideration seriously needs to be given to reject this application in its entirety.
