Submission: Objection

Comments: I would like to object to the plans for this communication tower

reason is that the hadfield square is subject to being a conservation area

and therefore should be kept as is for future generations to see the history

of hadfield in its purest for hadfield square is the only part of hadfield which

has remained as is for centuries and has big history to the area

this proposed plan does not in anyway shape or form conform to the aesthetics of a conservation

area and would ruin the area completely

also for this to be placed in such an area with

very little benefit to the local area is beyond a joke

quite frankly

with such little benefit to the wider community it would

just be a waste of protected space and an eyesore

we have conservation protected areas to protect the rich history of the area

and to spoil it with something which has no benefit to the wider community is actually

a crime would the council agree that in such a important area of hadfield

that if residents of the protected building on and around hadfield square

was to apply to radically change the aesthetics of the exterior of those buildings on the

square then planning would be rejected straight away on the basis

that such changes would dramatically change the overall look and take away the history

of the area

and as such the plan for this mast should and must be dismissed on such a basis
