Submission: Objection

Comments: I wish to object to this proposal. Vehicles parked at the side of the road when servicing the equipment will present a huge hazard, nobody would choose to park there because it would be dangerous. Drivers cannot see what's coming in the opposite direction due to the brow of the hill work vehicles parked on the side of the road would cause further obstruction.

Over the years the local authority and local residents have worked hard to respect this historical area and respected planning restrictions. The placement of this mast and associated equipment in this area would be an insult to residents and spoil the look and integrity of the area. Allowing this proposal would put a blight on the area and send a bad message to residents and visitors alike, we do get tourists in Hadfield, i see them often.

There are plenty of other sites close by where this could be placed which wouldn't impede it's function but would be less obvious. The applicant lists other sites they have considered for this mast and it's notable they are not on hills or even in the immediate area so I'm sure we could find somewhere else to locate it.
