chapel rd
hayfield
high peak
DERBYSHIRE
SK22 2JS

Submission: Objection

Comments: I object to this application as it will impact highway safety with increased volumes and larger vehicles having to access it right past the local primary school along very narrow lanes.

Local rights of way will be damaged by horses to the point of not being passable as the fields become waterlogged on that land and horses would make the footpaths impossible to use (just look at some of the adjacent horse fields during Jan).

The size of the proposed area to be used by horses is extensive/excessive and will have a detrimental visual impact on a beautiful valley, as viewed from the surrounding hills, houses and especially the sett valley trail between hayfield and birch vale. it will likely commercially impact a successful local cafe due to lower visitor numbers to the trail.

Changing SUCH a large area of land usage from agriculture to horses will especially affect the visual impact.
