Submission: Objection

Comments: As you are aware our property is directly abutting the development.

I believe there is to be an acoustic fence to be erected on our boundary but we need a full detailed specification including height and also a time frame for installation should the application be approved.

Obviously this needsto be in place as a priority at the start of the development and would need to be subject to our approval.

We would also need information relating to the road finishes and speed limits, this road is a few metres from our property boundary and only 8 metres from our patio doors.

We are extremely concerned regarding noise blight from the estate road.

At the moment there is just a field.

We have no information from Wain Homes and they have no concern for us as existing residents.

So it's an objection on lack of information in the application.
