Submission: Objection

Comments: A traffic survey was conducted on behalf of the applicant at dinting vale in December.

The information from this survey will be totally misleading as there were traffic lights situated at the bottom of simmondley lane.

These lights brought traffic to a standstill with tailbacks stacking up past the survey area as far back as Brookfield.

Many drivers avoided the area obviously to avoid the traffic and the speed data will also be totall misleading as the cars only crawled across the traffic sensors.

This was reported by e- mail to Ben Haywood who in turn relayed this to Glen Donaldson.

But no decision should be made on this application until a revised survey has taken place.
