Dear High Peak Borough Council,

RE: Andrew Owen, Kinell Cottage, 7 Warhurst Fold, Hadfield, Glossop, Derbyshire, SK13 1AX

I am contacting you from the office of Robert Largan MP.

Robert has been contacted by his above named constituent. He has asked that his objections to the planning application to the 5G Mast due to be installed in Hadfield in Old Hall Square be noted. Please see below a copy of the constituent's correspondence for further information.

"We have recently been informed that a planning application has been submitted to erect and install a 15 metre 5g telecoms mast right in the middle of Old Hall square in Hadfield.

This has come as quite a shock to myself and the residents whom, for many years have been proud to upkeep and maintain the historic nature of this beauty spot in Hadfield.

Old Hall square sits within a conservation area and a telecoms mast would directly impact the spot for many reasons, of which I have copied the text of my objections here:

"A 5g telecoms mast impacts the basis of the conservation status of the area.

Aesthetically it is not in keeping with the historic facade of the immediate properties/dwellings and will ruin what is regarded as a beauty spot of Hadfield village.

There is no clear evidence of the longer term health effects that this new technology will emit to us and our children.

Old Hall Square holds centuries of historic value and as such the buildings have been kept to a standard to preserve its history, including aged photographic information which was installed in recent years for people enjoying the Heritage Trail. Installing a 15mtr 5g mast directly opposite this information placard completely devalues the spirit in which it was installed in the first place. I am horrified that the local council is even considering this appalling decision."

I am unable to find details of this application online. Please may you forward a planning application number and/or a link to the planning application which Mr Owen mentions?

Robert would be grateful if you could provide a substantive response which we can share with the constituent as soon as possible.

Kind regards,

Jack Rydeheard
